

Ultra Deluxe by AJT

ULTRA DELUXE
BY AJT

Japan

Travel Japan in the utmost comfort with AJT's Ultra-Deluxe tours. Stay in the best hotels and ryokans, delight in exceptional cuisine and revel in exclusive experiences that aren't attainable on a standard tour. We offer quality transportation service, as well as a private guide and driver for sightseeing based on your interests. Travel between cities via shinkansen (bullet train) in first-class seats and enjoy reservations to the best hotels and ryokans (traditional inns). We produce spectacular and fully customizable itineraries exclusive to you! Our Ultra-Deluxe tours are designed to offer you a novel experience, as well as access to destinations and entertainment that the average tour doesn't have access to.

The Ultra-Deluxe Difference

Enjoy the best Japan has to offer from the best rooms in the finest accommodations to top tier guides and drivers to unique experiences that will make your tour a once in a lifetime experience. Ultra-Deluxe tours are a world apart from our standard or even deluxe-plus tours, offering increased comfort and amenities that will cater to your every need. The star of the tour will be your privileged access to exclusive experiences and locations that the standard tour simply won't have access to – providing you with a deeper knowledge and appreciation for some of Japan's arts and traditions.

The Ultra-Deluxe Team

Each member of our Ultra-Deluxe team has been trained specifically to exceed high expectations by anticipating the guests' needs and delivering excellent experiences to leave the guests with a perfectly memorable trip. Our team members have a "never say no" mentality. We will always do our best to accomplish your request.

Dive into the mysteries of Japan through secret locations, hidden-gems, and exclusive sites that are not normally open to the public through our team's first-hand experience with the best hotels, ryokans, restaurants, sites, and activities. Our guides and leader proactively conduct site inspections prior to client arrival and our whole team is always on the prowl for new and exciting experiences to introduce to our guests!

The Best Guide

Choosing from our wide selection of guides, we will match you with the best guide that fits your interests. For example, if you have interests in pottery, we will match you with a guide with more knowledge in that field. All of our guides are held to high standards and we continually monitor their performance. In addition to our regular guides, guest speakers and professionals can also be arranged based on your interests. These guests have additional expertise in their respective fields that can give you a deeper understanding of Japanese culture and history. As for Japanese Gardens, if they are your passion, we will invite a professional garden builder and designer to show you some of the private gardens in Kyoto that are normally not available to the public. You will also be able to learn the principles of building a Japanese garden, how to maintain it, and any additional questions you may have.

Hand Picked Hotels and Rooms

At AJT, we understand that just booking 5-star accommodations isn't enough for a truly luxurious experience. Our goal is to not only seek out the best hotel in the area with the best amenities and services for your comfort and relaxation, but also to book the best room within each hotel. This grants our guests not only the best views – including icons such as the lights of Shinjuku or the majesty of Mt. Fuji – but also the freedom to stretch out and relax. Each hotel or Ryokan we choose we have also personally visited to ensure its quality meets the standards of our Ultra-Deluxe guests. You are sure to find comfort, relaxation, and quality at every hotel and ryokan you visit during your stay!

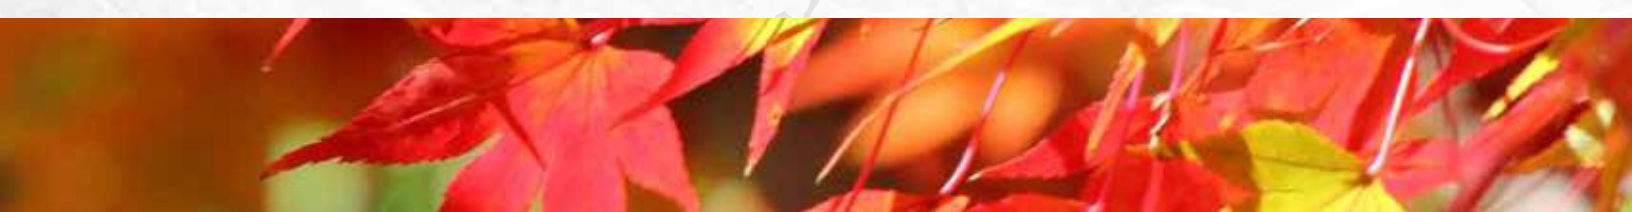

Insider Experiences

Many of our clients seek a unique experience in Japan and may even have a specific interest in mind that has drawn them to this ancient land. We are happy to customize each itinerary to meet your needs and interests and ensure that your trip is memorable. A list of experiences we offer would be long and far reaching, so please feel free to ask us if you are interested in a specific activity! Some popular experiences include: a traditional kaiseki dinner while enjoying a Geisha performance, lunch with sumo wrestlers at the sumo stable, or a private pottery tour and hands-on experience. These and many more can be arranged to make your tour special.

Best Dining Experiences

Indulge in some of the world-famous cuisine that Japan is known for! From Michelin-starred restaurants in Tokyo and Kyoto, to off-the-beaten-path locations that fill you with serenity, the food in Japan is definitely something you can't miss. Food is often one of the most important aspects of any culture, and Japan is no different. You will be able to learn about traditions surrounding the humble beginnings of sushi, the family-style hot-pot, the succulent steak of Kobe, or even the popular street foods which can be found in major cities. Whichever flavor suits your fancy, we will be happy to make your reservations or point you in the right direction for an adventure through the unique dishes of Japan.

Extraordinary Experiences

A luxury travel isn't just about lavishness, serenity, and an abundance of sensational amenities provided at a destination, it also embraces the ability to access the people, places, and experiences that represent all that is genuine about a destination. You don't just want to see – you want to be engaged as well. Fortunately, we are able to collaborate with Japan's best artisans and culture houses to allow our guests to interact with these living icons. We have consulted with experts from each field to ensure that these artisans are prime at what they do.
